

Our new GradeXpert developments means you can deliver your school's information, directly from GradeXpert to parents.

GradeXpert has developed a seamless integration with Australia's leading school communication system, tiqbiz, to allow teachers and other school staff to connect directly with parents. The integration combines the power of GradeXpert and the direct delivery of tiqbiz to enhance your school's connection with the parent community.

Everything you're familiar with in GradeXpert can be sent with a notification directly to the individual parent:

- Behaviour incidents
- Medical incidents,
- Student learning plans
- Please explain absence requests
- Interim and semester reports
- Easily track and re-send sent notifications.
- Free for parents to use.
- Multilingual translation tool means parents receive information in their preferred language.

Advanced communications

When you have more general school information, you will be able to switch across to tiqbiz and enjoy this easy to use, world leading communication tool.

- Send information to
 - The whole school
 - Year levels
 - Individual parents
- Teachers control their own class
- Manage response forms
- Schedule when information is sent
- Calendar integration

It's a complete system that's used by over 1,000 schools in Australia, New Zealand and Europe.

Forms for the whole school

A fully integrated digital forms platform for schools who require real-time information from parents. It's used extensively with digital signature for absence, volunteers and excursion permissions. TiqbizFORMS empowers staff to complete school administration forms on or off the school grounds. Combined with the tiqbiz messaging system, it becomes a powerful tool for the school to rapidly seek responses and compile them in an orderly format.

Active notification technology

Tiqbiz includes a comprehensive suite of messaging and notification tools to make it easy for you to deliver your information and make sure it's read.

- Set scheduled release dates
- Set repeating reminders
- Expire messages automatically
- Pin important messages
- Link to events
- Multiple pushes
- Multi-channel message delivery option

Language translation

The tiqbiz language translation tool helps people for whom English is a second language to read and understand your messages.

They simply set their preferred language in preferences, then everything is received translated.

Getting started is easy

Tiqbiz is affordable and really make it easy to get your school up and running. They provide training and onboarding leaflets for the parents.

Information on Tiqbiz can be found at:
tiqbiz.com/au/school-app

Talk to us and we will chat about how to get up and running.

There's a better way to sign visitors, staff and students into your school

...that's faster, more efficient, and includes essential tools for today's busy front desk.

Visitor registration is now a vital part of school security and sound documentation. GradeXpert has developed a seamless integration with Australia's leading school visitor registration system, Passtab.

Passtab replaces paper sign-in books by managing visitor, contractor and staff registrations through an iPad stationed at your front desk. It's also an efficient way to manage contractor and visitor policies, such as the Child Safety Standard Code of Conduct.

Student late arrival feature

- Late student sign in
- Early leaver student sign out
- Off campus student sign in/sign out (eg. excursion via staff member)
- Other student tracking options available.

Popular features

- Sick bay monitoring
- Borrowed key tracking
- Relief teacher hours tracking
- Unlimited iPad terminals around your school
- Complete tablet and admin customisation
- Notification emails to nominated staff
- Staff sign in/sign out by smartphone
- Staff emergency access via smartphone
- T&Cs and Policies display
- Multi-campus version available
- Before and after school care

Sick bay

Use Passtab in your sick bay to replace the paper book. Sign students into sick bay with all the required information using a customised form. This also registers their entry time. In emergency situations students in sick bay are accounted for along with all other visitor, student and staff submissions.

When the student is signed out of the sick bay, their exit time is recorded and they are removed from the emergency list.

Key Management

Track and manage your school keys as staff, relief staff and volunteers move in and out of the school.

Multi campus configuration

Passtab Premium specialises in multi-campus configurations to link any number of campus locations into one seamless system.

We work with you to create the exact arrangement and reporting functions that best meet your requirements.

Each individual campus can be configured to meet its own requirements while being a part of the whole-school system.
